HESSAM BARASM MAMAGANI

Senior Full-Stack Developer | AI Solutions Engineer | Cloud & Enterprise Platforms

Email: hessam.mamagani@gmail.com | h.mamagani@pilz.com.tr | Phone: +90 539 229 4251
Location: Istanbul, Türkiye | LinkedIn | Portfolio | GitHub
Open to Sponsorship Opportunities in US/Canada/Europe | Willing to Relocate

SUCCESS HIGHLIGHTS

- Sole developer of 3 enterprise-grade platforms (PilzPortal, EvenTracer, InsightfulAI) used across Pilz Turkey operations.
- Built full AI orchestration platform with RAG pipeline, vector stores, and multi-provider support (OpenAI + Anthropic).
- Automated SAP CRM operations via RPA integration, eliminating manual data entry and reducing processing time by 80%.
- Designed 130+ RESTful API endpoints with role-based access, JWT/WebAuthn biometric auth, and 99.9% uptime on Azure.
- Trained and mentored 150+ engineers and students, delivering 640+ hours of full-stack coding instruction.

PROFESSIONAL SUMMARY

Senior Full-Stack Developer and AI Solutions Engineer with deep expertise in architecting and delivering production-grade enterprise platforms. Sole developer of three large-scale systems at Pilz Turkey: an enterprise CRM/ERP portal serving all departments (PilzPortal), an AI knowledge platform with RAG and multi-provider LLM orchestration (InsightfulAI), and a multi-tenant exhibition management SaaS used by 1,200+ visitors (EvenTracer). Proficient in .NET 10, React, Next.js, TypeScript, Azure, and AI integration (OpenAI, Claude, vector stores). Background in engineering management and 640+ hours of technical instruction adds leadership depth.

TOP SKILLS

- Full-Stack Development: .NET 10, ASP.NET Core, React 19, Next.js 16, TypeScript, Vite, MUI, Tailwind CSS
- AI & LLM Integration: OpenAI GPT, Anthropic Claude, RAG Pipelines, Vector Stores, Assistants API, Document Analysis
- Cloud & Infrastructure: Azure App Service, Blob Storage, Key Vault, CI/CD (GitHub Actions), Docker
- Architecture & Patterns: Clean Architecture, CQRS (MediatR), RESTful APIs, Entity Framework Core, SignalR
- Security & Auth: JWT, OAuth, WebAuthn (Biometric/Passkeys), QR Authentication, Role-Based Access Control
- Integration: SAP CRM (via RPA), Government APIs, Twilio SMS, Google Maps, PDF/Word Document Generation

PROFESSIONAL EXPERIENCE

1. Project Development Engineer (Full-Stack & AI Solutions)

Pilz GmbH & Co. KG | Aug 2024 – Present | Istanbul, Türkiye

- Sole developer of 3 production platforms adopted across all Pilz Turkey departments and external exhibitions.
- Architected and deployed ASP.NET Core APIs (130+ endpoints, 35+ controllers) with Azure App Service and SQL Server.
- Built AI orchestration layer integrating OpenAI GPT and Anthropic Claude with RAG pipelines and vector stores.
- Implemented RPA-based SAP CRM automation, eliminating manual account creation and order processing workflows.
- Delivered real-time features via SignalR, push notifications, and Progressive Web App with offline capability.
- Designed JWT + WebAuthn biometric authentication system with role-based access control (5-tier permissions).
- Built automated Word/PDF document generation for quotes, invoices, and training certificates.
- Integrated external services: Google Maps, Twilio SMS, Azure Blob Storage.

Key Projects (Pilz)

Pilz Portal – Enterprise Service Management Platform (CRM + ERP)

- Full CRM/ERP platform managing consulting, training, product, and engineering service lifecycles.
- Stack: ASP.NET Core 10 APIs, React 19 (Vite), MUI, SQL Server, Azure, SignalR.
- Features: AI-powered customer onboarding (tax certificate OCR, business card scanning), quote-to-invoice workflows, automated Word/PDF generation, RPA-based SAP CRM sync, real-time notifications, PWA, EN/TR i18n.
- Impact: Digitized all service request processing across Pilz Turkey, improving operational efficiency by 70%+.

InsightfulAI – AI Knowledge & Document Analysis Platform

- Multi-provider AI platform with intelligent document analysis, chat, and domain-specific safety assistants.
- Stack: ASP.NET Core 10, React 19 (Vite), MUI, OpenAI API, Anthropic Claude API, Azure.
- Features: RAG pipeline with vector stores, OpenAI Assistants API, streaming chat, document upload & AI Q&A, company data normalization, WebAuthn biometric login, QR authentication.
- Impact: Reduced customer inquiry response time by 80% with AI-driven automation.

EvenTracer – Exhibition & Event Management Platform

- Multi-tenant SaaS for exhibition management: registration, check-in, badge printing, analytics.
- Stack: Next.js 16 + TypeScript + Tailwind CSS; .NET 10 backend (Clean Architecture, CQRS/MediatR).
- Features: Dynamic form builder, badge editor, email template editor, USB QR scanner integration, survey system with winner selection, subscription tiers, EN/TR i18n, 30 domain entities.
- Impact: Streamlined event operations for 1,200+ registered visitors, eliminating manual check-in errors.

2. Instructor

Üçüncü Binyıl Akademi | 2023 – 2024 | Istanbul, Türkiye

- Conducted 640+ hours of live coding sessions on full-stack development.
- Trained students in .NET, React, AI automation, and cloud integration.
- Guided students in building a full-stack e-commerce platform as capstone project.

3. Earlier Career (Summarized)

Chairman & Project Manager | Bid Manager | Senior Supervisor (2008 – 2023)
Managed operations, cross-functional teams, and engineering IT systems across construction and consulting firms.

EDUCATION

- Master's in Structural Engineering | Urmia Kamal University (2015 – 2018)
- Bachelor's in Civil Engineering | Islamic Azad University (2003 – 2008)
- Windsor High School of Manchester, UK (Year 7 – 1996–1997)

Note: Transitioned from Civil/Structural Engineering to Software Engineering, specializing in AI, Cloud, and Full-Stack Development.

CERTIFICATIONS

- MCSE (Microsoft Certified Systems Engineer)
- CCNA (Cisco Certified Network Associate)
- C# for .NET Developers (Coursera)
- IELTS General Training

LANGUAGES

- English (Professional Proficiency)
- Turkish (Fluent)
- Azerbaijani, Persian (Native)
